

*Norwalk Harbor Management Commission  
Application Review Committee  
Tuesday, April 11<sup>th</sup>, 2017  
7:00 p.m.  
Room 220 - Norwalk City Hall  
"Special Meeting Agenda"*

1. **COP Application in response to DEEP Notice of Violation to City of Norwalk (NOV No. LIS-2017-3854-V).** Work area Norwalk Visitor's Dock (David S. Dunavan Boating Center at Veterans Memorial Park). The application clarifies the currently existing Certificate of Permission (COP) #201504256-SJ issued on 10 September 2015 as requested by the Connecticut Department of Energy and Environmental Protection (CT-DEEP).

Accordingly, the application provides clarification for:

**1) replacement of material excavated for construction of the authorized ramp;**

The proposed work involves reuse of material which was excavated as required to demolish the existing boat ramp as well as install the below grade structural member for the boat ramp. The DEEP has noted that the reuse of the material was not specifically authorized in COP201504256-SJ and therefore this COP Application is submitted to clarify the construction methodology;

**2) improvements to the parking area;** The original COP authorized the contractor to raise the parking area and establish a vegetated slope from the existing tidal wetlands to the newly elevated parking area. The current COP application expands upon the construction methodology;

**and 3) repairs to outfall pipe.** The original COP authorized improvements to a pre-1995 existing drainage system. During construction of existing elements, it was discovered that the outfall pipe leading waterward from the catch basin was damaged. The current COP proposes to replace this element during the course of the ongoing work.

John Thomas Pinto  
Chairman, Application Review Committee
