- 1. 61 Bluff Avenue LLC, Wilson Cove Norwalk, Pre-application review.** The applicant, Mr. Matthew Schimenti, proposes to construct a 4'x 41' long steel framed pier with a 3.5'x45' aluminum ramp and an 8'x20' timber floating dock. The pier structure will be supported by (four) 12" diameter steel piles and the floating dock will be secured by (four) 12" diameter steel piles.
- 2. 198-200 East Avenue. CAM Application.** The applicant, Dimitrios Dimitrogou, proposes to combine the one and two-unit residential dwellings on the current properties into one new address (200 East Avenue). Part of the re-construction is to elevate a deck on his property which appears to be waterward of the coastal jurisdiction line on the property.
- 3. Eversource Transmission Line Relocation-Pre-application review.** Presentation by Eversource of the preferred route for the relocated transmission lines for the WALK BRIDGE project.
- 4. Vessel Relocation Study Walk Bridge Project--.** The study addresses construction-related impacts to the Maritime Aquarium research vessel and the Sheffield Island Lighthouse Ferry, both located between Walk Bridge and Stroffolino Rt 136 Bridge. The study evaluates the need to relocate both vessels and presents physical alternatives intended to support safe operations for the organizations affected by the Walk Bridge construction project.
- 5. Kelp Farm, South of Sheffield Island, Jean Paul Vellotti, Westport, CT. Tentative Notice to Approve.** The applicant plans to construct a seasonal kelp farm in the vicinity south of Sheffield Island. The system will be deployed in late fall and removed in early spring.
- 6. I95 Yankee Doodle Bridge Rehabilitation Project:** Although no formal application has been presented to Norwalk Harbor Management Commission regarding this project and with time permitting, a brief discussion of the proposal will be held.
