Mr. Mark Chilabba, Chairman of the Human Relations Commission, addressed the Council. He said that he was pleased with the nomination of Dr. Charles Stabinsky to that commission, adding that Mr. Stabinsky would be a great asset. Also, Mr. Chilava expressed concern regarding the open position for an Assistant Mayor, saying it was ironic in light of the fact that all department heads recently received a notice to carefully review their budget requests. Mr. Wrenn asked that the record reflect that this was not on the agenda for discussion.

Mr. Robert Griffith of the Woodward Avenue Association addressed the Council. He said that he appreciated the Administration's effort to keep the budget under control, and made specific reference to the "middle class" residents of Norwalk who have difficulty

paying their high taxes. He asked the Members to remember the importance keeping the tax base down and of doing whatever is necessary to keep property values from decreasing. Mr. Griffith referred to the many abandoned vehicles that 'litter' SONO; 29 vehicles were removed yet another 15 have replaced them and remain abandoned within a six-block area of his neighborhood. He added that this deters potential homebuyers from wanting to purchase in a particular area.

of the Rogers-Ritch-Merritt House for a total not to exceed \$5,000. Account No. 03000 264.

Mr. Krummel said that the \$5,000 payment would be made to the architect to dismantle the house and move it from its present location. It is necessary to move the house since the owner will have it destroyed if it remains on the site. Last year the Council approved a \$50,000 allocation for this project; Mr. Krummel said that private contributions of \$5,000+ have also been received. Mr. Kimmel said that he would support the Agreement but questioned whether site work would be involved. Mr. Wrenn said that he would support the Agreement but was concerned about what the architect would include in the preliminary Phase I. Mr. Krummel said that language in the Agreement could be made stronger such that Phase I of the project would be defined only as removal of the house from the site and would not include any other architectural work. Ms. Bain suggested a friendly amendment to change the word "relocation" to "dismantling."

**\*\* MR. KRUMMEL MOVED TO APPROVE THE ITEM WITH THE 'FRIENDLY AMENDMENT' PROPOSED BY MS. BAIN.**

Account No. 0900 4031 5777 C0137.**

**\*\* MR. MANN MOVED TO APPROVE THE ITEM.**

Ms. Rivas said that the delay was very unfortunate but that she was happy to see the project move forward. Mr. Kimmel asked what the consequence(s) would be if the item was not approved. Mr. William Grummond, Director of Public Works, said that the project was delayed because the firm lost some of its engineers. Mr. Kimmel said that he would reluctantly support the item but added that it must move forward. Ms. Olmstead-Sawyer stressed the importance of avoiding these kinds of delays since 'time is money.'

**\*\* MOTION PASSED UNANIMOUSLY BY A VOICE VOTE OF FOURTEEN.**

**10.** Authorize the Director of Public Works to issue Orders on Contract to Deering Construction, for Project No. 2000-1, Proposed Improvements to Flax Hill Road Phase I, for a sum not to exceed \$22,900. Account No. 09 41 40 21 5777 C0021.

**\*\* MR. MANN MOVED TO APPROVE THE ITEM.**

Mr. Bondi said that he was very unhappy with the lack of progress being made on Flax Hill, saying it should have been completed long ago. This is causing a great deal of inconvenience for the people in the area. Mr. Kimmel questioned when the project is expected to be completed. Mr. Grummon explained that the former Council recognized the length of the project and that it would need to be done in two phases; Phase I finished in December 2001. Phase II of the project is under design; construction is expected to begin in Spring 2002. All the work at the entrance to Flax Hill Park has been completed.

**\*\* MOTION PASSED UNANIMOUSLY BY A VOICE VOTE OF THIRTEEN.**

**I. Council President**

**B. Other General Council Business**

2. Briefing on Board of Education Budget by Dr. Salvatore Corda.

Dr. Corda commented that recent communication between the Council and the Board of Education has been outstanding, for which he was grateful. He said that the Board of Education is aware that everyone is trying their best to understand the budget, which he called a blueprint, and said it was important to understand three important documents: the Board's goals adopted in June 2001, the financial document and the instructional plan of implementation which forms the basis for the Boards' goals. He said that all three documents are the result of tremendous planning and deliberation. The Board feels strongly that each student should be taught in a way that prepares them to perform at a level commensurate with what will be required of them as an adult in society. This process begins by examining staffing needs based on expected enrollment. Contractual obligations must be met, and annual reviews made of the maintenance needs of the City's plan. Program requests are analyzed.

Dr. Corda said that enrollment over the last five years has flattened somewhat and that this year's enrollment is expected to increase from 11,160 to 11,300. He showed slides of typical classroom sizes in each of the school segments – elementary, middle and high schools. He said that there is particularly large increase in the number of students who use English as a second language. This year's budget document was prepared on a school-by-school basis to provide the clearest picture of what is needed. Dr. Corda said that he and the Board of Education is already aware that many areas will need to be refined for next year. The principal of each elementary, middle and high school is required to provide an allocation for his or her individual school needs. \$1.3+ million is being requested, and the bulk of the money is to meet requirements. Four teachers in various departments are needed in three high schools. \$107,171 of the \$1.3 million will be used to replace and/or repair existing equipment. Dr. Corda said that the 6.95% increase for next year would be split as follows: 4.1% for staffing, 7.9% transportation, 10.5% employee benefits.

Mayor Knopp said that he and the Council pledged better communication between themselves and he is happy to see it's working. He thanked Dr. Corda for his presentation.

Ms. Bain asked for clarification about special Ed classes. Dr. Corda said that these have now been incorporated into regular classrooms. Mr. Wien questioned what the class size exception meant. Dr. Corda said that Music, Physical Ed, etc. classrooms had different class sizes than learning classrooms. Ms. Olmstead-Sawyer asked for clarification of 'art' and wondered whether it referred to as 'the arts.' Dr. Corda said that at present art means

art but as progress is made there will be more attention to ‘the arts.’ Dr. Corda said that more employees are needed in the facilities department. This might decrease the cost of having third party vendors perform some of the needed services, i.e., painting. Dr. Corda said that he would provide further explanation about the increase in transportation costs. As it relates to special Ed, Dr. Corda said that an inflated number would help to secure additional State financial aid. In some instances, the Court system places a child in a special Ed room when they are should not technically be considered a special Ed student. Lastly, Dr. Corda said that much of Norwalk’s teacher population could be considered seasoned in that there are few entry-level teachers in the school system. As they retire and are replaced by more entry-level teachers, the salaries paid will decrease. Mayor Knopp asked if any thought had been given to offering early retirement and what impact this might have on the school budget. He urged the Board of Ed to delve into this on a deeper level. As it related to class size, Mayor Knopp asked if this was related to the union. Dr. Corda said that this was a valid point but that not much research had been done on the subject. As it relates to hire of a technical rather than educational nature, it is the intent of the Board of Education to contact higher education schools to find candidates to fill positions of physical therapists and occupational therapists. Dr. Corda said that textbooks would need to be purchased for next year. In prior years the textbook account was sometimes used as a cushion and drawn on for purchases of other than textbook materials. This situation will be closely monitored.
