

*Norwalk Harbor Management Commission  
Application Review  
January 19, 2010  
7:30 pm Norwalk City Hall*

1. 2009-13 Revised: Richard Scalise, 15 Seabreeze Place

The proposal includes drawings revised 12/08/09 by John Hilts depicting a recreational boat dock with elevator lift that extends a total of 67' waterward of an existing seawall. The details are: height remains at +12.5'; the pile supported timber pier is now 4' x 52' leading to a 7' x 14' pierhead which will support an elevator lift for a recreational boat. The lift extends 8' beyond the waterward end of the raised structure. The bottom of the elevator lift will be at +2' above the substrate to keep the lift and berthed vessel above the bottom at all tides. The proposal also requests retention of 147' of a pre-1980 seawall, and the installation of 4' wide timber steps leading from the owner's property to access the top of the seawall.

Originally reviewed November, 2009 and tabled by the Commission on the understanding that plans were in revision.

Agent: John Hilts

2. Other Business

Review of David Woodward, Tonetta Circle, revision and status.

Letter to the Chairman of the NHMC from Brian Thompson (re): Woodward

Other Business to be determined
