 - a. Consultant – **Steadman**
 - b. Harbor Master -- **Griffin**
5. Reports
 - a. Waterfront Advisory – **Griffin**
 - b. Dredging- **Pinto**
 - c. Application Review Committee- **Pinto**
 - (1) 11 Tonetta Circle, Norwalk CT: Permit application. The proposed work involves installation of a 3'x 30' aluminum ramp, a 7'x 14'timber float, 4 timber float restraint pilings and a float stop system consisting of 3'x 10" timber planks attached to the 4 pilings which will keep the float at minimum 18" above the harbor bottom at all tides. This work will also require cutting out a 3'x 4' section of timber deck that overhangs the seawall so the ramp can be secured to the existing seawall. The pilings will be driven using a barge and crane with a hammer-type pile driver. The float will be installed and the ramp last to complete the project.

The project also entails bringing the overhang of the deck in compliance with current DEEP regulations. The overhang is part of an existing deck in existence since 1994 that overhangs a 1993 permitted seawall. Submitted by James J. Bajek; LLC on behalf of applicants: Clifford St. John & Sons L.P., 5 Tonetta Circle, Norwalk.
 - (2) Drawbridge Operation Regulations; Norwalk River, Norwalk, CT. AGENCY: Coast Guard, DHS, ACTION: Notice of temporary deviation from regulations. Request for comment on bridge openings and closings.
